

FUZZY EYES

Press kit

BIO

Fuzzy Eyes it's a dream pop musical project established in the city of Barcelona and it is composed by five members: **Roger** (vocals and guitar), **Marcel** (bass), **Gerard** (synthesizer), **Óscar** (guitar) and **Joan** (drums).

They define their style as *introvert pop of accelerated tempos*, creating an ethereal yet restless atmosphere. Their songs stand out for having strumming guitars, layers of synths and catchy melodies. The band started their live shows in September 2020 with a first performance at the Delaytan's band competition where they won second prize.

Among their main influences stand out bands from the 80s like **New Order** or **The Cure** and also other current projects with **Beach Fossils**, **DIIV**, **Dayglow** or **The Zephyr Bones**.

They debuted their first EP during 2022, titled “**This Time**”, that stood out especially with the song “It Was Always There”, their most played single on YouTube with more than 180 thousand plays until today.

They have participated in different live shows in the city of Barcelona, sharing the stage with bands from the current scene like **Krögers**, **Newborn Ghost**, **Bons Nois** or **Life in a Castle**; and opening acts for international bands like **This Eternal Decay** (Italy).

REVIEWS

Barcelona Culture:

<https://www.barcelona.cat/barcelonacultura/ca/recomanem/pop-s-omni-fuzzy-eyes>

“The **Fuzzy Eyes** are a band formed by **Roger Ribas Nicolau**, **Gerard Morató Vinyes**, **Marcel Gómez Macià**, **Joan Aleix** and **Óscar Zippermouth**. None of the five were born in Barcelona, but the Catalan capital was the space where they met and where they gave shape to their dream pop music.

And it's that they say they make "a shy pop with accelerated tempos" which translates into songs sung in English like *It Was Always There*, *Nothing* or *Being Together*. All, and

some more, form *This Time*, a set of guitars, synth sounds and vocals that you shouldn't miss if you like dream pop.”
